
a
Technical replicates
One digest
×1
12 injections
Workflow replicates
One stool aliquot
×1
15 preparations
Spatial sampling
One stool specimen
×1
10 spatial aliquots
Intra-individual
One donor · repeat sampling
×1
11 samples
Inter-individual
Ten donors · one sample each
×10
10 samples
b
Peptides found with the transferred database (% of own count)
Same series
Inter-individual series
Technical replicates
Workflow replicates
Spatial sampling
Intra-individual
Inter-individual
c
Own peptide identities found again with the transferred database (%)
d
Peptides found (% of own-database count)
Own database
All 12 pooled
Other 11 pooled
e
Own peptide identities found again (%)
f
Protein groups
